

ACMLA-ACACC Historic Map Committee Report  
ACMLA-ACACC Annual General Meeting  
June 18, 2015 in Ottawa, Ontario

As was reported last year in Montreal, the committee met several times to discuss what to do with the map inventory as storage was becoming a growing challenge. It was decided to stop the sales of the regular series of maps and ensure archival copies are saved. The Birds Eye Views inventory from McMaster and the University of Alberta were shipped to Memorial and sales of these maps continue. Once these maps are sold, the Historic Map Committee will then be finished its work.

For all of their long years of service I want to thank Gordon Beck (McMaster) and Cheryl Woods (Western). The success of this program is due to them and all the other members of the committee over the years.

Danial Duda  
Chair, Historic Map Committee
